To find more information on Utah consumers and their privacy rights, Users may [read the privacy policy](#).

This document informs Users about the technologies that help Dateability to achieve the purposes described below. Such technologies allow the Owner to access and store information (for example by using a Cookie) or use resources (for example by running a script) on a User's device as they interact with Dateability.

For simplicity, all such technologies are defined as "Trackers" within this document – unless there is a reason to differentiate. For example, while Cookies can be used on both web and mobile browsers, it would be inaccurate to talk about Cookies in the context of mobile apps as they are a browser-based Tracker. For this reason, within this document, the term Cookies is only used where it is specifically meant to indicate that particular type of Tracker.

Some of the purposes for which Trackers are used may also require the User's consent, depending on the applicable law. Whenever consent is given, it can be freely withdrawn at any time following the instructions provided in this document.

Dateability uses Trackers managed directly by the Owner (so-called "first-party" Trackers) and Trackers that enable services provided by a third-party (so-called "third-party" Trackers). Unless otherwise specified within this document, third-party providers may access the Trackers managed by them.

The validity and expiration periods of Cookies and other similar Trackers may vary depending on the lifetime set by the Owner or the relevant provider. Some of them expire upon termination of the User's browsing session.

In addition to what's specified in the descriptions within each of the categories below, Users may find more precise and updated information regarding lifetime specification as well as any other relevant information – such as the presence of other Trackers - in the linked privacy policies of the respective third-party providers or by contacting the Owner.

How Dateability uses Trackers

Necessary

Dateability uses so-called "technical" Cookies and other similar Trackers to carry out activities that are strictly necessary for the operation or delivery of the Service.

Trackers managed by third parties

App Store Connect (Apple Inc.)

Dateability is distributed on Apple's App Store, a platform for the distribution of mobile apps, provided by Apple Inc.

App Store Connect enables the Owner to manage Dateability on Apple's App Store. Depending on the configuration, App Store Connect provides the Owner with analytics data on user engagement and app discovery, marketing campaigns, sales, in-app purchases, and payments to measure the performance of Dateability. App Store Connect only collects such data from Users who have agreed to share them with the Owner. Users may find more information on how to opt out via their device settings [here](#).

Personal Data processed: Trackers, unique device identifiers for advertising (Google Advertiser ID or IDFA, for example), Universally unique identifier (UUID) and Usage Data.

Place of processing: United States – [Privacy Policy](#).

Payments processed via the Google Play Store (Google LLC)

Dateability uses a payment service provided by Google LLC that allows the Owner to offer the purchase of the app itself or in-app purchases.

Personal Data processed to complete the purchases are processed by Google, as described in the [privacy policy for the Google Play store](#).

Personal Data processed: device information, payment info, Trackers and Usage Data.

Place of processing: United States – [Privacy Policy](#).

Payments processed via the Apple App Store (Apple Inc.)

Dateability uses a payment service provided by Apple Inc. that allows the Owner to offer the purchase of the app itself or in-app purchases.

Personal Data processed to complete the purchases are processed by Apple, as described in the [privacy policy for the App Store](#).

Personal Data processed: device information, email address, payment info, Trackers and Usage Data.

Place of processing: United States – [Privacy Policy](#).

RevenueCat (RevenueCat, Inc.)

RevenueCat is a payment service provided by RevenueCat, Inc. The service allows the Owner to monitor and analyse the User and their purchase history and can be used to keep track of User behaviour.

Personal Data processed: device information, Trackers, Usage Data and User ID.

Place of processing: United States – [Privacy Policy](#) – [Opt Out](#).

Supabase (Supabase, Inc.)

Supabase is a hosting and backend service provided by Supabase, Inc.

Personal Data processed: Trackers, Usage Data and various types of Data as specified in the privacy policy of the service.

Place of processing: Singapore – [Privacy Policy](#).

Trackers duration:

- sb-access-token: duration of the session
- sb-refresh-token: duration of the session

Functionality

Dateability uses Trackers to enable basic interactions and functionalities, allowing Users to access selected features of the Service and facilitating the User's communication with the Owner.

Trackers managed directly by the Owner

Direct registration and profiling (Dateability)

By registering or authenticating directly through Dateability, Users allow Dateability to identify them and give them access to dedicated services. The Owner may process Data collected when Users register or authenticate also for targeting and profiling purposes; to find out more, Users can contact the Owner using the contact details provided in this document.

Personal Data processed: date of birth, email address, first name, gender, geographic position, last name, password, profile picture, Trackers, Usage Data, User ID, username and various types of Data.

Trackers managed by third parties

Google OAuth (Google LLC)

Google OAuth is a registration and authentication service provided by Google LLC and is connected to the Google network.

Personal Data processed: Trackers, Usage Data and various types of Data as specified in the privacy policy of the service.

Place of processing: United States – [Privacy Policy](#).

Measurement

Dateability uses Trackers to measure traffic and analyze User behavior to improve the Service.

Trackers managed by third parties

Analytics collected directly

Dateability uses an internal analytics system that does not involve third parties.

Personal Data processed: Trackers and Usage Data.

Trackers duration:

- modernizr: indefinite

Marketing

Dateability uses Trackers to deliver personalised ads or marketing content, and to measure their performance.

Trackers managed by third parties

Customer.io (Peaberry Software Inc.)

Customer.io is an email address management and message sending service provided by Peaberry Software Inc.

Personal Data processed: email address, Trackers and Usage Data.

Place of processing: United States – [Privacy Policy](#).

How to manage preferences and provide or withdraw consent on Dateability

Whenever the use of Trackers is based on consent, users can provide or withdraw such consent by setting or updating their preferences via the relevant privacy choices panel available on Dateability.

With regard to any third-party Trackers, Users can manage their preferences via the related opt-out link (where provided), by using the means indicated in the third party's privacy policy, or by contacting the third party.

How to control or delete Cookies and similar technologies via your device settings

Users may use their own browser settings to:

- See what Cookies or other similar technologies have been set on the device;
- Block Cookies or similar technologies;
- Clear Cookies or similar technologies from the browser.

The browser settings, however, do not allow granular control of consent by category.

Users can, for example, find information about how to manage Cookies in the most commonly used browsers at the following addresses:

- [Google Chrome](#)
- [Mozilla Firefox](#)
- [Apple Safari](#)
- [Microsoft Internet Explorer](#)
- [Microsoft Edge](#)
- [Brave](#)
- [Opera](#)

Users may also manage certain categories of Trackers used on mobile apps by opting out through relevant device settings such as the device advertising settings for mobile devices, or tracking settings in general (Users may open the device settings and look for the relevant setting).

How to opt out of interest-based advertising

Notwithstanding the above, Users may follow the instructions provided by [YourOnlineChoices](#) (EU), the [Network Advertising Initiative](#) (US) and the [Digital Advertising Alliance](#) (US), [DAAC](#) (Canada), [DDAI](#) (Japan) or other similar services. Such initiatives allow Users to select their tracking preferences for most of the advertising tools. The Owner thus recommends that Users make use of these resources in addition to the information provided in this document.

The Digital Advertising Alliance offers an application called [AppChoices](#) that helps Users to control interest-based advertising on mobile apps.

Consequences of denying consent

Users are free to decide whether or not to grant consent. However, please note that Trackers help Dateability to provide a better experience and advanced functionalities to Users (in line with the purposes outlined in this document). Therefore, in the absence of the User's consent, the Owner may be unable to provide related features.

Owner and Data Controller

Dateability, Inc.
1312 17th Street Unit 2258
Denver, CO 80202

Owner contact email: contact@dateabilityapp.com

Since the use of third-party Trackers through Dateability cannot be fully controlled by the Owner, any specific references to third-party Trackers are to be considered indicative. In order to obtain complete information, Users are kindly requested to consult the privacy policies of the respective third-party services listed in this document.

Given the objective complexity surrounding tracking technologies, Users are encouraged to contact the Owner should they wish to receive any further information on the use of such technologies by Dateability.

Definitions and legal references

Personal Data (or Data)

Any information that directly, indirectly, or in connection with other information — including a personal identification number — allows for the identification or identifiability of a natural person.

Usage Data

Information collected automatically through Dateability (or third-party services employed in Dateability), which can include: the IP addresses or domain names of the computers utilised by the Users who use Dateability, the URI addresses (Uniform Resource Identifier), the time of the request, the method utilised to submit the request to the server, the size of the file received in response, the numerical code indicating the status of the server's answer (successful outcome, error, etc.), the country of origin, the features of the browser and the operating system utilised by the User, the various time details per visit (e.g., the time spent on each page within the Application) and the details about the path followed within the Application with special reference to the sequence of pages visited, and other parameters about the device operating system and/or the User's IT environment.

User

The individual using Dateability who, unless otherwise specified, coincides with the Data Subject.

Data Subject

The natural person to whom the Personal Data refers.

Data Processor (or Processor)

The natural or legal person, public authority, agency or other body which processes Personal Data on behalf of the Controller, as described in this privacy policy.

Data Controller (or Owner)

The natural or legal person, public authority, agency or other body which, alone or jointly with others, determines the purposes and means of the processing of Personal Data, including the security measures concerning the operation and use of Dateability. The Data Controller, unless otherwise specified, is the Owner of Dateability.

Dateability (or this Application)

The means by which the Personal Data of the User is collected and processed.

Service

The service provided by Dateability as described in the relative terms (if available) and on this site/application.

European Union (or EU)

Unless otherwise specified, all references made within this document to the European Union include all current member states to the European Union and the European Economic Area.

Cookie

Cookies are Trackers consisting of small sets of data stored in the User's browser.

Tracker

Tracker indicates any technology - e.g Cookies, unique identifiers, web beacons, embedded scripts, e-tags and fingerprinting - that enables the tracking of Users, for example by accessing or storing information on the User's device.

Legal information

This privacy statement has been prepared based on provisions of multiple legislations.

This privacy policy relates solely to Dateability, if not stated otherwise within this document.

Latest update: 7 January 2026
