

About us

Everyday we work hard to allow anyone who owns a website to solve their Privacy Policy problems.

Meanwhile, we do our best to offer end users as well as our customers the best possible experience for protection and information about their personal data.

This is our way to leave a mark in this world.

This is our mission.

Story

Iubenda comes to life in February 2011, from an idea its founder Andrea Giannangelo had two years before. Soon Domenico Vele joins the team, with his contribution of great expertise.

The question on which everything starts is: writing the Privacy Policy for a website is frustrating and boring, why don't we solve the problem once and for all?

And here we are, feverishly working every day in this mission.

During the first months of 2011, the team of iubenda adds a key element. Carlo Rossi Chauvenet joins iubenda as "the lawyer".

In March 2011, even before the launch on the market, but with the strength deriving from several months of market research, iubenda receives investments from top level investors, among the best Italian minds in the field of the web: the Venture Capital fund Digital Investment SCA SICAR (under the advise of dPixel, by Gianluca Dettori) along with the Business Angels Andrea Di Camillo e Marco Magnocavallo.

Having these investors joining iubenda is a source of pride and gives added credibility to our project.

What's the meaning of iubenda?

Iubenda è is a latin word. It's the passive periphrastic of the verb iubeo (to command), and its meaning is è "the things that have to be commanded". Shortly, it's a periphrasis of the word "law".

Team

Our team is full of diversity and contaminations.

The drive that motivates us comes from the willingness to make this world better. To give concrete strength to this desire, we work hard everyday to make the legal world easier for everyone, starting from the Privacy Policy.

Andrea Giannangelo

Born in 1989, he's the young mind of the team. Web designer since the age of 10, he has taken part in many web projects. The most successful was webtelevideo.com, which has recorded a few millions of visitors so far. Andrea worked hard to establish iubenda and reacted with courage to all difficulties.

Domenico Vele

Nato nel 1976, Software Engineer. Laureato a pieni voti e con lode in Ingegneria Informatica presso l'Università di Napoli.

Ha guadagnato considerevole esperienza come consulente IT presso Altran Spa, dove si è occupato di una vasta gamma di settori, come quello degli uffici bancari, quello delle infrastrutture per le telecomunicazioni, fino a difesa militare e sistemi per la sanità.

Alcuni anni fa è passato allo sviluppo web, entrando nella startup MyPage.it come Lead Software Engineer.

Dopo questa esperienza, è stato chiamato da Andrea Giannangelo per guidare il Software Design di iubenda. È al momento CTO.

Carlo Rossi Chauvenet

Born in Verona in 1981, he graduates with honors at the Bocconi University, Milan. He obtained a PhD in private law at the University of Padova, and an LLm in international trade law at the New York University and at the National University of Singapore. Since 2006, he's been a professor at the Bocconi University and lawyer for one of the top law firms in the world.

Investors

Our investors are part of our team, we work with them very closely. The team of dPixel (chaired by Gianluca Dettori) and the contributions of Andrea Di Camillo, Marco Magnocavallo and Stefano Bernardi play a key role for us.
